Chapps Inspection World

Chapps®

Smart | Fast | and Accurate

Rental Inspector

This App is a practical tool for performing move-in and -out inspections. You want to work fast whenever possible and in great detail when needed. The App supports in-App signing, generates automatic reports, facilitates settlement and much more.

Building Inspector

This App enables you to organize and execute different types of inspections. Making sure your building is in good shape, and that you identify risks or major problems immediately. You process this data and decide on actions that need to be taken. A great tool for preparing your annual meetings.

Dorm Inspector

The App is designed for student housing, specifically for dormitories. You have to handle a lot of simultaneous inspections; you have to organize turnovers quickly and efficiently. Moreover, this App helps you to enforce move-out rules and dormitory rules in general.

Residenz Website

The Residenz Website is created for your residents, tenants, even landlords. With this extranet, they can signal problems, formulate requests, and much more. Along with a handy message center, you keep them informed. You can also give them access to selected documents regarding the building or the specific property.

Maintenance Organizer

All our Apps can be extended with our Maintenance Organizer. This tool lets you process your data and translate issues into jobs, create work-orders, decide on urgencies, priorities, and manage your intervention teams. They use a specific Maintenance App, where they can consult their jobs, get directives and send feedback.
