

Chapps®

Smart | Fast | and Accurate

Chapps Rental Inspector

There are a lot of pertinent reasons why The Chapps Rental Inspector App is so different. What makes it the right solution, the only real solution for executing rental inspections is that it makes sure you get things done the right way, the easy way.

1

The App works on both Apple and Android tablets.

2

Synchronize Offline/Online

The App works offline, synchronization guarantees that you are always operational even if you are offline. Get your data and consult objects, eventual grouped in buildings, receive your assignments or create assignments in-App.

3

Logical Navigation

Navigation tree, structure, never forget anything, you keep a clear overview at all times.

4

Available Content

Start immediately, everything is pre-defined, walkthrough checklists, detailing checklists.

5

Works Situational

Supporting different type of inspections and situations, like how to handle alterations or try to receive settlements.

6

Go for Detailing

You can go in great detail whenever you want, both on element and on area level.

7

Get the Issue Detailing right

You can detail the issues; thanks to an elaborate issue & action concept you can immediately see which issues where already there.

8

Supports Interaction

At any moment go to summary adjust, detail, request agreement.

9

Calculation

Choose between a direct cost-setting, or more elaborate calculations. Allocate to landlord and tenant, and make use of our advanced costing feature.

10

Finishing up

By automatically generating different report formats, use the preview and get on App signing, send reports by email.

11

Reporting

Structured, personalize, prepare for the maintenance guys, organize turnover.

12

Managing

Of course, for settings and editing but also, for planning and follow-up of assignments, quality control on inspections & inspectors.

13

Organize Maintenance

Using specific report formats or link it up with our separate Chapps Maintenance App (and manager).

14

No repetitive work

Work in cascade and use our several productivity tools: use as standard, duplicate elements, even areas, start from a reference object, ...

Work fast when possible and in detail when needed. Make sure your inspections are valuable, and that you collect accurate data.

So, what are you waiting for?

Discover the Chapps Rental Inspector App and from now on work smart, fast and accurate.
